

Portefølje rapport

I denne oppgaven skulle vi først lage en XD prototype for vår egen nett portefølje, så skulle vi kode prototypen med HTML og CSS.

Adobe XD

Jeg startet med å lage et ganske basic design som jeg ble fornøyd med (hjemside), så la jeg til flere sider for å fylle ut nettsiden.

Første kode

```

Denne koden lagde jeg siden jeg ikke trodde jeg var dyktig nokk til å lage en nettside identisk til prototypen min, så jeg prøvde heller å lage en nettside som løste oppgave 1, men etter jeg ble ferdig så prøvde jeg meg på å kode mitt xd design.

Kode 2:

```
port2.html x  PreviousWork.html  skills.html  education.html  contactme.html  aboutme.html  port2.html  port2css  PreviousWork.html  contactme.css  skills.css  education.html  ...

port2.html > @html > body

```

På hoved siden så lager jeg en class som jeg har kalt links og den holder alle linkene til de andre sidene. I css'en til hoved siden så har jeg byttet fonten og endret bakgrunnsfarge og valgt hvor jeg vil ha alle elementene mine på siden.
